The Resource Assistants Program is a rigorous and immersive, paid internship for individuals who are interested in conservation, natural and cultural resources, environmental management, research and development, or other career opportunities with land management agencies (16 U.S. Code 37, Subchapter II – RESOURCE ASSISTANTS Code § 1725).

After completing a minimum of 960 hours of satisfactory work as an RA and obtaining a post-secondary degree (associate degree or higher), RAs may become eligible for the RAP noncompetitive hiring authority and receive a 2-year certificate of eligibility.
